

QUANTITATIVE & CHEMICAL BIOLOGY
INDIANA UNIVERSITY, BLOOMINGTON

Quantitative and Chemical Biology (QCB) Graduate Training Program

Trainee Fellowship Application Form

The QCB Training Program Fellowships are competitively awarded to second and third year students working on projects at the Chemistry-Biology interface. Potential trainees **must** be involved in interdisciplinary research projects that employ some integration of the chemical, biochemical, physical and life sciences to address problems central to understanding human health and disease.

The QCB Training Program is committed to diversity equity in recruitment and retention with respect to gender, race and ethnicity, sexual orientation, and physical disabilities.

Fellowships are made possible through support by the National Institutes of Health and Indiana University.
